

Quest Premium Sodium Bentonite

	QPN 200 White Swelling Powder, Sodium Based	QPN 300 White Swelling Powder, Sodium Based	QPN 300G White Swelling Agglomerate, Sodium Based
Cristobalite	5% max	5% max	5% max
Quartz	2% max	2% max	2% max
Base Exchange Capacity	70 meq/100g min	70 meq/100g min	70 meq/100g min
PARTICLE SIZE:			
Passing 75 microns	85% max		
Passing 53 microns		99% max	
Retention 1.18 mm			5% max
Retention 150 microns			85% min
Grit content retention 53 micron wet sieve		0.5% max	0.5% max
Moisture (Free moisture)	14%	14%	12%
Swell (mls per 2g in 100ml water)	25	25	25

High Montmorillonite content with low lattice iron and negligible free Iron. This premium Sodium Bentonite offers excellent whiteness, swell and gel characteristics

Packaging: Available in 25kg or 1 ton bags

Certificate No: FM 90160

Certificate No: EMS 73233

Quest Premium Calcium Bentonite

	QPC 200 White Non-Swelling Powder, Calcium Based	QPC 300 White Non-Swelling Powder, Calcium Based	QPC 300G White Non-Swelling Agglomerate, Calcium Based
Cristobalite	5% max	5% max	5% max
Quartz	2% max	2% max	2% max
Base Exchange Capacity	70 meq/100g min	70 meq/100g min	70 meq/100g min
PARTICLE SIZE:			
Passing 75 microns	85% max		
Passing 53 microns		99% max	
Retention 1.18 mm			2%max
Retention 150 microns			97%max
Grit content retention 53 micron wet sieve		0.5% max	0.5% max
Moisture (Free moisture)	14%	14%	12%
Swell (mls per 2g in 100ml water)	5	5	5

Packaging: Available in 25kg or 1 ton bags

Certificate No: FM 90160

Certificate No: EMS 73233
